# Helicopter Day at New England Air Museum

On Saturday 23 June 2018 the New England Air Museum will feature many of the helicopters in its extensive collection. For the first time the museum will display over 20 helicopters and equipment, including many that have been in storage for several years and are not normally open to the public. Some of the helicopters will be open to the public for tours and there will be experts there to explain the aircraft and their operation. The helicopters include the 25,000 pound CH-54 Tarhe, sometimes called the Skycrane, a single seat gyrocopter, a Navy drone, an award winning manpowered helicopter, and many others. At 1:00 Kevin Bredenbeck, former Sikorsky test pilot, will present "X2 Technology Sikorsky Door Step into the Future".

The program will run from 10:00 a.m. – 3:00 p.m., but the museum will remain open until 5:00 p.m.
