President's Message

I thought you might find this side note interesting.

We all pretty much accept that the EAA Young Eagles program, at chapter level, often involves giving a kid a ride and then, ...we hear nothing. In one or two cases we had a pretty good feeling that the kid would go on to join the aviation world as a pilot, mechanic or in some other capacity.

I happened to see Alyssa Mae Celone's one year work anniversary at P&W pop up on my LinkedIn feed June 13th, so I sent her a congratulatory note and invited her to drop by Skylark for a burger on the 15th. I didn't hear back from her until today when she sent this note:

“Thank you! Sorry I didn't see this sooner, I've been working in Russia for Pratt & Whitney. Thanks for the invite, sorry I missed the cookout! I will try to make the next one if I'm not back in Russia! I'm working on their commercial airliner for the Irkut company, it has Pratt & Whitney GTF engines.”

I knew she graduated as an engineer from UCONN, had been making progress toward her PPL, and was working for Pratt. I didn't realize she had already been assigned overseas. Great to hear that one of our Young Eagles is doing so well in the aviation biz. We knew she was self-motivated and destined for success so it's fun to follow her progress. Our members were a big part of helping her on that journey when we sent her to OSH.

Meeting Notifications

The chapter leaders have gotten feedback that some people would like to attend meetings, but they forget about the date, or they didn't check email for the newsletter.

Beginning next month, we will be sending a cell phone text message to anyone who would like to get a meeting reminder the day before the meeting.

If you would like to be added to this notification system, send an email to info@eaa1310.org, or a text message to 860-281-1310.

INCLUDE YOUR PHONE NUMBER AND SERVICE PROVIDER – Verizon, Sprint, T-Mobile or AT&T. You may have service through a company that resells service, but those are the only four companies that actually operate the cell system. We can figure out who it is, if you are unable to.
