# Uncontrolled Airspace

The Newsletter of EAA Chapter 1310

## July - August, 2021

### Next Meeting

---

Wednesday July 14 7:00 PM at Skylark Airport.

- The EAA Chapter information video has Jack Pelton discussing AirVenture, the expansion of the EAA museum, and talks about the AeroEducate program.
- After the meeting we will be demonstrating using a flight simulator to fly the arrival into the EAA Convention using live Air Traffic Controllers.

Since we'll be using computers to join the group flight simulation, remote meeting will not be available this month.

### VMC Club Meeting

There will be no VMC Club meetings in July and August.

### Next Event

---

Corn Roast & Cookout – Saturday August 14 11:00 – 2:00

Rain Date Sunday August 15

We get the freshest corn available, plus hot dogs, hamburgers and watermelon. All you can eat for a \$8.00 donation.

## 2022 Membership Renewals

---

Join EAA Chapter 1310, or renew your membership at any meeting, through the online store, or mail a check payable to EAA Chapter 1310 to the address on the first page. We'll get your membership card back to you.

Annual membership is \$25. Renew for three years for \$60. Save \$15.

Note that there are some stock images on the online store that came with the software. Purchases are processed correctly.

Thanks go out to all the members who have renewed.

## Young Eagles Flights

---

We would like to resume some Young Eagles flights this summer. We'll figure out some cleaning procedures, and if you're comfortable making some flights, please contact Paul at [info@eaa1310.org](mailto:info@eaa1310.org). I'll coordinate the number of seats available, and then figure out what type of advertising we should do. EAA's online registration should help match the number of kids with the number of seats available to prevent disappointment from both the pilots and kids.

EAA is offering double Young Eagle credits for flights during June, July and August. The chapter will receive \$10 for each child flown to be used for educational purposes or Young Eagles expenses.

## Looking for CFI with Aircraft

---

One of our new members is looking for a local CFI who would be able to provide training in their aircraft. His experience with area schools are that instructors move on after gaining flight time, so he's looking for a stable situation. If you're able to help, or have a lead, contact Edward Knight at [info@eaa1310.org](mailto:info@eaa1310.org), and we will forward your message to him.

## Pancake Breakfast

---

We held our first pancake breakfast in over a year on May 29. Unfortunately we weren't able to host any fly-in aircraft due to the rainy weather that weekend, we did have over 50 people attend. Additional pictures can be seen on our web site's photo gallery.

## For Sale

Lowrance GPS 2000C portable GPS. \$50

12 channel GPS + WAAS receiver, satellite status, battery life, and digital data position display pages. Quick access nearest airport feature. #6B and VNAV computer modes. Exclusive runway guidance approach feature. 39 map display ranges .02 to 4000 miles. Customizable displays with pilot selected navigational information. Internal memory saves up to 1000 waypoints. Backup battery keeps stored settings.

Comes with all mounts and antenna shown, plus carrying case.

Contact Paul at [info@eaa1310.org](mailto:info@eaa1310.org), 860-752-3213.

## **Get Meeting and Event Reminders Sent to Your Phone**

We can send you a text message reminder the day before meetings and events. Send an email to [info@eaal310](mailto:info@eaal310) with your name, phone number and mobile phone company. Unsubscribe at any time.

# **EAA AeroEducate Program**

---

A new aviation education program will be announced by EAA at this year's convention. EAA AeroEducate is a new program designed to keep kids engaged in aviation regardless of their location or proximity to an airport.

AeroEducate is a web-based resource that will provide clear, age-appropriate pathways to aviation, aerospace, and potential career paths. It is designed for kids 5 to 18 years old, and will include easy to use aviation themed activities for teachers and EAA chapters, whether in school or at the airport.

Among the elements of AeroEducate are:

- Badging Program – Participate in aviation, earn badging for continued engagement and continued discovery in aviation
- Career Pathways – Demystifies the journey, regardless of area of aviation interest.
- Classroom Activities – Aviation infused to help educators spark interest among youth.
- Database of Youth Aviation Activities – Creating nationwide opportunities to participate.

## **Local Aviation Event Schedule**

---

Visit the [eaa1310.org](http://eaa1310.org) Calendar page for updated listings and more information about these events.
